my question and concerns

that we get a barrister and my question to the barrister is that do we have a lease my understanding is yes

this is the part of the arbitration that was not answered

dave and baz and sheo were acting in good will to stand up and protect its members only to be shafted by you lot again

dave baz and sheo didnt take us to court you did

this is a very complex and involved process there is no need to rush it through i ask u to put it to department of fair trading

if you can apply for a builder permit under this crt

it very clearly states no in there rules

bundagen so called legal, illegally acted on behalf of its members with the department of fair trading

telling them we have a licence to occupy to get the builder permit

this was selected to a few , therefore again cheating the members

the department made a huge legal mistake and later acknowledged that .

i do not feel either of you are honest nor act in the good will of the community nor members

lets finish off were they left off
